ABOUT ME

I am a 2026 Computer Science graduate from Vignan's Institute of Information Technology, Visakhapatnam. I enjoy building web applications and solving real-world problems using Python. I have hands-on experience in both frontend and backend development, and I have worked on projects involving Python, Flask, React, SQL, and basic machine learning. I am a quick learner, a team player, and I am ready to contribute from day one. Open to relocation.

SKILLS

Languages: Python, SQL, JavaScript, Java (Basic)

Web Development: HTML, CSS, Flask, React.js, REST APIs

Database: MySQL, PostgreSQL — writing queries, creating tables, joins

Python Libraries: Pandas, NumPy, Matplotlib, Scikit-learn, NLTK

Tools: Git, GitHub, VS Code, Jupyter Notebook, Railway (deployment)

PROFESSIONAL EXPERIENCE

Python Full Stack Trainee

Dec 2025 – Present

Codegnan IT Solutions Pvt. Ltd., Vijayawada

- Learning and building full-stack web applications using Python, Flask, HTML, CSS, and JavaScript.
- Working with MySQL databases — creating tables, writing queries, and connecting them to backend applications.
- Built small projects like CRUD apps and a portfolio website as part of training.

PROJECTS

NOPhish – Phishing Link Detection | HTML, JavaScript, CSS

2025

- A website where you paste any link and it tells you if the website is Safe or a Phishing (fake) site — helps users stay safe online.
- JavaScript checks the URL for suspicious words and patterns like fake login pages or unusual domain names.
- [GitHub Repo](#)

Task Manager – Full Stack App | Python, Flask, React, MySQL, JWT

2025

- A team task management web app where you can create projects, assign tasks to team members, set due dates, and see all tasks on a dashboard.
- Two types of users: Admin (can do everything) and Member (can only update their own tasks). Login is secured using JWT tokens so only logged-in users can access data.
- [Live Demo](#)

Movie Review Sentiment Analyzer | Python, NLTK, Scikit-learn

2025

- A program that reads a movie review written by a user and predicts whether it is a Positive or Negative review — trained on 50,000 real IMDB reviews.
- First cleaned the text (removed unwanted words, symbols), then converted words into numbers using TF-IDF, and finally trained two models — best accuracy was **90.21%**.

EDUCATION

B.Tech – Computer Science & Technology

2022 – 2026

Vignan's Institute of Information Technology, Vizag

Subjects: Data Structures, OOP, DBMS, Operating Systems, Machine Learning

Board of Intermediate Education (MPC)

2020 – 2022

Sri Chaitanya Junior College, Visakhapatnam

CERTIFICATIONS & COMPETITIVE PROGRAMMING

- Python Skill Test – CodeChef: Scored **93%** (May 2026)
- CodeChef (nsai60224): 561 problems solved, Problem Solver Gold Badge, Rating 1108
- Certifications: Relational Database Basics | Data Analytics on AWS | Cisco Networking (2 certs)
