PROFESSIONAL SUMMARY

Creative AI Artist and Video Editor with intermediate expertise in CapCut, basic knowledge of Adobe After Effects and DaVinci Resolve, and hands-on experience with AI generation tools including Runway ML, Kling AI, and Pika Labs. Passionate about blending AI-generated visuals with cinematic colour grading and storytelling. Active content creator on Instagram and freelancer with real-world project experience through college clubs and independent client work.

SKILLS

Video Editing & Colour Grading

- CapCut — Intermediate: cuts, transitions, text animations, trending reels, sound sync
- Adobe After Effects — Basic: motion graphics, visual effects, animated text reveals
- DaVinci Resolve — Basic: colour grading, LUTs, cinematic look development

AI Art & Generation Tools

- Runway ML — AI video generation, motion brush, background removal, image-to-video
- Kling AI — Text-to-video and image-to-video AI generation
- Pika Labs — AI video creation and creative visual effects
- MidJourney / Leonardo AI — AI image generation and visual concept development
- ChatGPT / Claude — Prompt engineering for creative content ideation and scripting

EXPERIENCE

Freelance AI Artist & Video Editor | Self-Employed | 2024 – Present

- Create AI-generated art and short-form video content for clients and personal brand (@naturethe_vibes)
- Edit and colour grade reels using CapCut with cinematic transitions, sound design, and visual effects
- Generate AI video content using Runway ML, Kling AI, and Pika Labs for social media and client projects
- Collaborate with college clubs to produce event highlight videos and promotional content
- Manage full creative pipeline: concept, shoot/generate, edit, grade, and publish

Python Full Stack Trainee | Codegnan IT Solutions Pvt. Ltd., Vijayawada | Dec 2025 – Present

- Developing full stack web applications using Python, Flask, HTML5, CSS3, and JavaScript
- Built CRUD applications and portfolio websites as hands-on mini projects during training

CREATIVE PROJECTS

AI Cinematic Reels — Instagram Content Series

- Produced a series of AI-generated cinematic short videos blending nature visuals with AI effects
- Used Runway ML for motion generation, CapCut for editing and CapCut effects, DaVinci Resolve for colour grading
- Published on Instagram @naturethe_vibes with consistent organic reach and growing follower engagement

College Club Event Videos — Freelance

- Edited promotional and event highlight videos for college tech fests and cultural events
- Designed animated motion titles in After Effects; applied cinematic colour grades in DaVinci Resolve

- Delivered final exports on time for social media and event-day screening

CERTIFICATIONS & ACHIEVEMENTS

- Relational Database Basics
- Data Analytics on AWS
- Switching, Routing & Wireless Essentials — Cisco
- Introduction to Networks — Cisco
- Core Organising Team Member — College Tech Events
